

Restaurant review: Simplylife

Last Sunday, I went to Simplylife in Kwai Fong for dinner with my family. The restaurant was a bit crowded. It took about twenty minutes to get a table.

After we took a seat, we looked at the menu. There was a lot of food to choose from. First, we ordered four bowls of pumpkin soup. It was sweet with a strong taste. It was a bit salty but still acceptable. Later on, we ordered a beef burger, a grilled eye steak and a pork chop for main course. They were all delicious. I liked the beef burger most since the beef was juicy and mouth-watering. When I took my first bite, some juice came out of the beef. I can't believe how much effort the chefs put into the beef to balance the taste and made it juicy. We didn't order any desserts. We just ordered some fruit tea for drinks. The tea was too sweet but still okay for me.

The service was amazing. When we ordered the food, the waiter listened to us attentively. The waiter served our food in about ten minutes.

The environment was a bit dark. On every table, there was a real candle. It seemed beautiful. There was a big window next to our table with a beautiful view. The price was reasonable. The pumpkin soup and the tea was free.

Simplylife is a good restaurant. I may recommend this restaurant to my friends. My family and I had a great night there. We look forward to going there again.
