Movie of the Week: Front of the Class

Star rating : ★★★★★

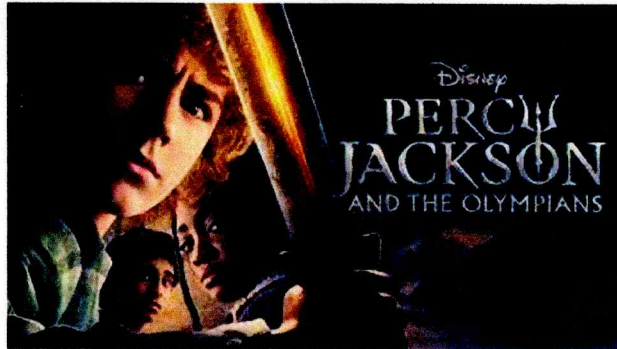

“Front of the Class” is an old movie in 2008. Although it’s old, it’s still a fantastic movie.

This drama is based on Brad Cohen’s true story and a book. In the movie, Brad has got the Tourette syndrome congenitally. It makes him often emit strange noises. Therefore, Brad is afraid of staying in public places. However, one day, the new principal invites Brad to a school concert. During the concert, Brad keeps making noises despite himself. The principal then lets Brad to come onstage. The principal then asked him the reason for making noises. Everyone looks at Brad strangely and he explains to everybody about his disease which cannot be treated. From that day on, no one looks at Brad with strange eyes anymore, and he also knows that he doesn’t need to be ashamed of his disease. He is inspired and wants to be an educator like the principal. Time flies and Brad grows up into an adult, but he still wishes to become a teacher. Unfortunately, no schools want to hire Brad, not because of his results, is because of his weird noises. Although Brad faces many failures, he still keeps his chin up! Can Brad become a teacher at last? Watch the movie and find it out.

“Front of the Class” is highly recommended. You will be inspired and moved after watching it. You will also work harder and respect everybody.

Percy Jackson and the Olympians

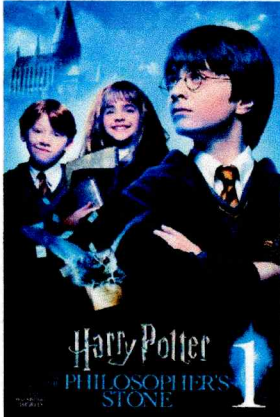

Percy Jackson and the Olympians is based on Greek myths. It is about the heroic adventures of Percy and his friends, Annabeth and Grover. His mentor, Luke, also plays a major role in the plot of the movie.

The main storyline is about how Percy returns a stolen item to the owner. Despite how easy it sounds, Percy's journey is filled with monsters that have malicious intentions. To complete his mission, he has to stay with the mighty monsters. The story is packed with surprising twists that will drive you crazy. After returning to the camp, Percy discovers the ugly truth about the person he trusted with his life. Facing a heartbreaking betrayal, what does Percy do? And what has destiny planned for him?

In my opinion, the actors did a spectacular job of portraying the characters' emotions. They are natural and realistic, which adds a lot of flavor to the movie. The special effects and suspenseful music also created tension. You will be sitting on the edge of your seat with the consistent tense moments.

Overall, I enjoyed the movie because it faithfully adapts to the original book. The writer of the book, Rick Riordan, directed the movie and I am extremely impressed by his work. My favourite character is the star of the movie, Percy Jackson, because he is always willing to risk his life for his friends and family. His courage is inspiring. In conclusion, I would highly recommend Percy Jackson and the Olympians to anybody who enjoys thrilling action movies.

Harry Potter and the Philosopher's Stone

The Harry Potter Series is a popular novel series written by J.K. Rowling, which has been made into movies since 1997. Harry Potter and the Philosopher's Stone is one of them.

The first scene starts at Privet Drive, where Harry Potter lives. Something abnormal is happening around him repeatedly. From glass disappearing, to mails flying from the chimney. Everything seems normal, however, when someone informs Harry that he is a wizard. He is invited to attend the Hogwarts School of Witchcraft and Wizardry to study advanced magic and how to control it. In the school, he made his first friends, Ron Weasley and Hermione Granger. While they are having their time, they are told that there is a mysterious artifact hidden in the castle (the school is a castle) secretly and nobody knows where it is. Despite that, someone is attempting to loot it. Harry, Ron and Hermione must secure it because the person is going to use it to redeem himself and dominate the wizarding world once more.

Apart from the astonishing plot twists and content, the background music also stands out. It syncs well with the actions. Gentle when relaxing and intense when severe. The CGI also made the movie look realistic. The amount of detail in the sets catches the audience's eye.

I found the movie motivating because it teaches you real-life truths. Also, it is stashed with intensive scenes, embellished with amusing ones.

Seriously, if someone is looking for a science fiction movie, this will be perfect for you.

P.S. Five star for this.

The Avengers

The Avengers is a science fiction movie that is more than a decade old now but it is still an extremely entertaining movie. It is directed by Anthony Russo, Joe Russo and Joss Whedon. The cast includes Chris Evans, Chris Hemsworth, Robert Downey Jr and Mark Ruffalo. The rating is 1. The running time is 143 minutes and the language is in English.

The main characters in the movie includes The Hulk, Iron Man, Captain America, Hawkeye, Black Widow and Loki. This movie may be very old but it still has a place in many hearts including mine so I will give

it a four star rating. The plot is relatively simple for such a complex franchise. The plot goes like this, Loki (Main Antagonist) uses the unlimited power of the tesseract (an energy cube) to open a portal that sends an army of aliens to conquer earth. Then, Nick Fury (Head of S.H.I.E.L.D) tasks The Avengers to stop Loki and the alien army.

This movie is extremely well-made. It culminates movies from other franchises including The Incredible Hulk, Iron man 1 and 2 and Captain America: First Avenger. The music is action-packed and adds to the scenes accordingly. My favourite character in this movie is Iron man Because of his humor and his highly innovative suits of armour. I would highly recommend this movie to anyone who enjoys action movies and science fiction movies.

Nezha: Birth of the Demon Child

On Saturday Mom and I went to the cinema to watch a new movie

'Nezha: Birth of the Demon Child'.

The movie is from China. The

Director is Yang Yu and the main

voice actors are Mo Han, Chan Hao,

Liu Chi, Jang Jia Ming. This movie is

a Chinese animated fantasy adventure film. It takes around

one hour and fifty minutes. Also, there are five main

characters Nezha, Ao Bing, Shen Gongboo, Taiyi Zhenren,

LiJing.

Born with unique powers, a boy is recruited to fight demons and the community is feared him. The Primus extracts a Mixed Yuan Bead into a spirit bead and a demon bead. The spirit bead can be reincarnated in human to

help King Zhou establish a new dynasty.

Meanwhile, the demon bead created a

devil that harmful the human. Ne Zha was

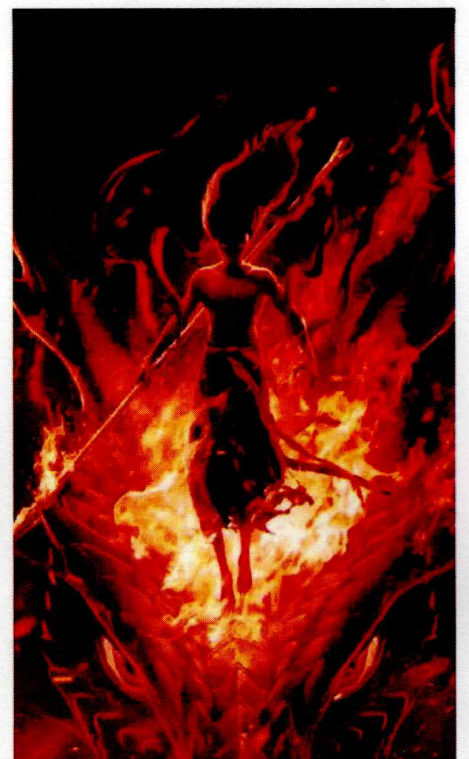

birthed as a demon child and the villagers

are terrified of him. Seeing the good in

him, Ne Zha's mother begged the villagers

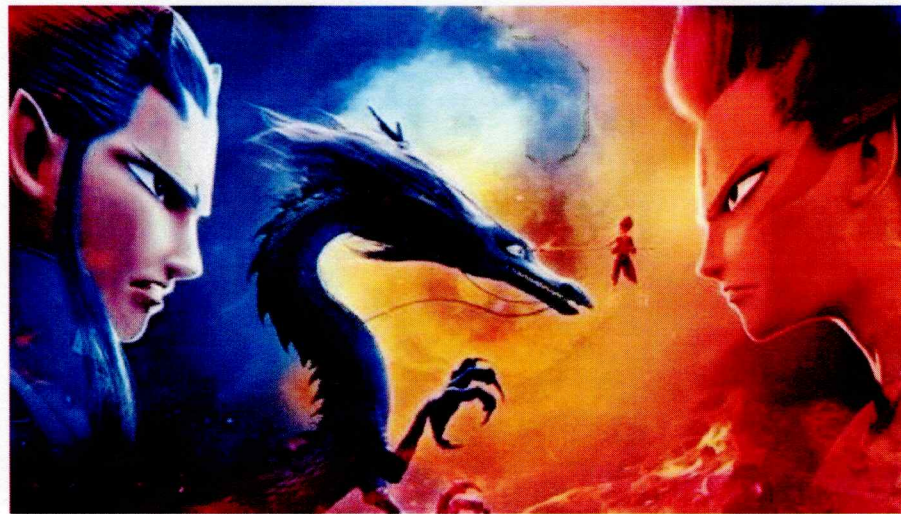

to spare his life. Ne Zha's father promised

to protect the villagers from his child,

keeping him locked away and journeying to the Kingdom of Heaven to break the curse.

I think this movie is very exquisite. I like the ending of Nezha: Birth of the Demon Child especially he unleashes his full demonic form. Ne Zha defeats Ao Bing, but spares his life for being his only friend. When the heavenly lightning approaches, Ne Zha surrenders to his fate but is unexpectedly joined by AoBing. Linking hands they unleash the Chaos Pearl's ability to absorb energy.

I feel satisfied to see the movie when Nazhe says destiny is in his hands, not determined by God. Except that, the music is fierce as fires too. My favourite character is Nezha because Nezha possesses great

powers and she made many outstanding achievements in the war to help Zhou Dynasty destroy King Zhou. He has become an embodies and has allowed people who respect and yearning for heroes. I will definitely remember that I watched this movie and I highly recommend this film since it is amusing , moving and inspiring too.
